WHITEPAPER

# THAILAND DATA CENTER TRENDS 2024

On all these markets, one of the key drivers is of course the official launch of cloud and OTT service provider presence in the country. Here is the last infographics shared by DC Byte during our panel discussion.

Thailand is the second most advanced market in southeast asia in terms of major public cloud deployment

Market	MW Per Million Capita	✓ Live and Announced Region/Local Zone				
		Malaysia	Indonesia	Thailand	Philippines	Vietnam
Malaysia	105.76	✓	✓			
Thailand	9.14	✓	✓	✓	✓	✓
Indonesia	5.47	✓	✓	✓		
Philippines	5.45	✓	✓	✓	✓	
Vietnam	1.42		✓	✓		
Key Developed Hubs - Singapore, Hong Kong, Australia (Sydney) and Japan (Tokyo)	148.96		✓	✓		

\*as per public disclosures, Mar 2024

“

Thailand is at the beginning of the cloud adoption journey, highlighted by Amazon Web Services (AWS)'s announcement of their first cloud region in Bangkok, which is followed by Microsoft recently. We expect the entry of the Cloud Service Providers to be a catalyst for a period of sustained growth as other international players ramp up their presence in Thailand.
