

**THAILAND IS BECOMING
A MAJOR DATA CENTER
MARKET IN ASIA.**

ETIX

WHAT'S HAPPENING

An unprecedented investment boom.

BOI approvals surging. Hyperscalers committing billions of baht.
The EEC corridor concentrating the bulk of regional ambitions.

But between the announcements and what actually gets delivered...

THE REAL QUESTIONS

4 burning topics. No easy answers.

01

Is the supply real?

Approved capacity vs. delivered capacity — where is the gap?

02

Who is filling these data centers?

Hyperscalers, NCPs, regional players... and what risks for operators?

03

Is the market under external pressure?

Geopolitical, regulatory and natural risks — how exposed is Thailand?

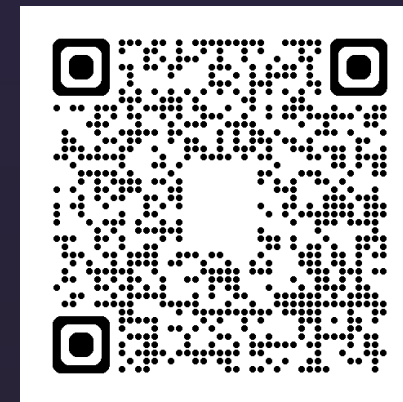

04

Can the infrastructure keep up?

Power, water, green energy — the real bottlenecks the headlines miss.
